

BLANCHARD GRINDING SEGMENTS

34147

34096

Blanchard Grinding Segments

CGW Segments are used to grind flat workpiece surfaces. Our Segment product offering ranges from general purpose precision grinding to fast, heavy stock removal to meet your job requirement.

AS5: New Advanced Ceramic and Bond Technology for heavy and fast stock removal.

AS3: Ceramic blend Technology for heavy stock removal.

WA: White Aluminum Oxide for general purpose performance.

Note: Segments are used on Blanchard machines with a Cortland chuck, both standard and jumbo size.

NEW

Tier	UPC	Size	Spec	Unit Of Measure	Box Qty	Application
