

GRINDING & CUTTING WHEELS

eXtreme

eXtreme Grind™ Grinding Wheels

- Extremely fast stock removal – High performance **CERAMIC** grain.
- Dual layer structure:
 - Grinding layer with aggressive coarse ceramic grains
 - Supporting layer for better surface finish and smoother grinding
- High density, uniform grain structure is self-sharpening and provides a cooler cut and longer life.
- Labor cost savings – grinds fast and much more efficiently compared to conventional grinding wheels.
- Can be used on steel, stainless steel, and high tensile metals.
- Best Choice for Heavy Material Removal Applications.
- Maximum performance on high power machines.

UPC	Size	Grit	Grain	RPM	Box Qty
4-1/2 x 1/4					
54270	4-1/2 x 1/4 x 7/8	24	CER24-TBF	13,300	25

Where Quality, Performance & Value – Come Together!

eXtreme Cut™ Ceramic Cutting Wheels, Metal/Steel

- Extremely Fast Cutting - high performance sharp **CERAMIC** grain.
- Advanced bonding system - specially engineered to provide long life and fast cut.
- Labor cost savings – much faster cutting rate compared to conventional cut-off wheels.
- Time cost saving – fewer tool changes due to very long wheel life.
- Can be used on steel, and high tensile metals.
- Maximum performance on high power machines.

eXtreme Cut^{SS} Ceramic Cutting Wheels, Stainless Steel

- Extremely Fast Cutting – high performance sharp **CERAMIC** grain.
- Advanced bonding system – specially engineered to provide long life and fast cut.
- Time cost saving – fewer tool changes due to very long wheel life.
- Can be used on steel, stainless steel, and high tensile metals.
- Special Contaminant Free formula developed and optimized for stainless steel cutting (eXtreme Cut SS)
